## NSW Safer Drivers Course For Learner Drivers

If you are on your NSW Ls and keen to learn more about safer driving behaviours then the Safer Drivers Course is for you. The Course will help you understand more about speed management, gap selection, hazard awareness and safe following distances and prepare you for when you drive unsupervised on your P's.

You will also receive 20 hours of log book credit once you complete the Course. To be able to attend a Course you must be on your Ls, completed 50 log book driving hours and be under 25. This is 50 actual hours of on-road driving and does not include the hours that can be accrued through (3 for 1) structured professional instruction.

Doing the Safer Drivers Course can get you extra credit too. Once you've completed 50 log book hours, you can choose to complete the Safer Drivers Course - this will give you 20 log book hour credits.

### **The Safer Drivers Course involves two modules:**

- A three-hour group discussion with other L platers for you to learn how to manage risks on the road.
- A two-hour in-vehicle coaching session with a coach and another learner so you can learn a range of practical safe driving behaviours.

You don't have to do both of these sessions in one day, however it is recommended you complete both sessions within one month.

### **The Course costs \$140**

Payment must be made at the time of booking.

### **Can I fail the Course?**

No. There is no assessment or pass/ fail component of the Safer Drivers Course.

However, participants must complete both Course modules to be eligible for the 20 hour log book credit in their learner driver log book.
